Product name: Gebhardt Pipe clamp for spiral-seam tubes without insulation rubber

Field of application: Assembling system for spiral-seam tubes / circular ductwork

Material: Galvanized steel

Dimensions: Width: 20 mm Thickness: 1.8 mm

Locking screws: M 6 x 20 mm

Nominal width: 80 mm – 400 mm

- Characteristics:**
- 2-part screw fixed pipe clamp with a welded on combination nut M8/M10
 - Quick and convenient installation due to wide opening angles
 - Easy installation with click-in lock
 - High load-bearing capacity due to reinforcing bead
 - Good adaptation to pipe tolerances thanks to 2 screw plugs
 - screw plugs with M6 combination cross recess
 - High temperature resistance

- For use in systems without sound insulation requirements

Weight:
